WELCOME TO

Xth Quark Confinement and the Hadron Spectrum

8-12 October 2012
TUM Campus Garching
Munich, Germany
WELCOME TO

Xth Quark Confinement and the Hadron Spectrum

THE TENTH EDITION IN THE SERIES!

8 -12 October 2012
TUM Campus Garching
Munich, Germany
CONF1: 1994 on the Lake of Como
CONF1: 1994 on the Lake of Como
Past Editions

Madrid (Spain) 2010
Mainz (Germany) 2008
Açores (Portugal) 2006
Sardinia (Italy) 2004
Gargnano (Italy) 2002
Vienna (Austria) 2000
TJNAF (USA) 1998
Como (Italy) 1996

LOEWE – Landes-Offensive zur Entwicklung Wissenschaftlich-ökonomischer Exzellenz

EPJ your physics journal

HELMHOLTZ ASSOCIATION

DFG Deutsche Forschungsgemeinschaft

Helmholtz Institute Mainz

HIC for FAIR

Technische Universität München
Section A: Vacuum Structure and Confinement

Conveners: M. Faber (TU Vienna), M. Polikarpov (ITEP, Moscow)

Section B: Light Quarks

Conveners: R. Alkofer (University Graz), B. Ketzer (TU München), J. Goity (JLAB, Newport News), H. Sazdjian (IPN Orsay), H. Wittig (JGU Mainz)

Section C: Heavy Quarks

Conveners: G. Bodwin (Argonne National Lab), P. Pakhlov (ITEP, Moscow), J. Soto (University of Barcelona), A. Vairo (TU München)

Section D: Deconfinement

Conveners: P. Arnold (University of Virginia), Y. Foka (GSI, Darmstadt), H. Meyer (JGU Mainz), J. Rafelski (University of Arizona)

Section E: QCD and New Physics

Conveners: S. Gardner (University of Kentucky), H. W. Lin (University of Washington), F. Llanes Estrada (UC Madrid), M. Snow (Indiana University)

Section F: Nuclear and Astroparticle Physics

Conveners: M. Alford (Washington University in St. Louis), T. Cohen (University of Maryland), L. Fabbietti (TU München), A. Schmitt (TU Vienna)

Section G: Strongly Coupled Theories

Conveners: J. Erdmenger (MPP Munich), E. Katz (Boston University), E. Pallante (University of Groningen), A. Szczepaniak (Indiana University)
**Round Table: Strongly Coupled Scenarios**

Content:
Chair: Antonio Pich
Members: Estia Eichten, Juan Maldacena, Emanuel Katz, Stefan Pokorski

**Round Table: What can compact stars really tell us about dense QCD matter**

Content:
Chair: Andreas Schmitt
Panel members: Juergen Schaffner-Bielich, Fiorella Burgio, David Blaschke, Wynn Ho, Josef Pochodzalla, Wolfram Weise

**Round Table: Resolving Physics BSM at Low Energies**

Content:
Chair: Susan Gardner
Panel members: Vincenzo Cirigliano, Peter Fierlinger, Christian Fischer, Karl Jansen, Stephan Paul

**Round Table on Quark-gluon plasma: What is it and how do we find out?**

Content:
Moderator: Yiota Foka
CHAIRS Berndt Mueller (TH) Yiota Foka (EXP)
Round Table: Strongly Coupled Scenarios
Chair: Antonio Pich Members: Estia Eichten, Juan Maldacena, Emanuel Katz, Stefan Pokorski

Round Table: What can compact stars really tell us about dense QCD matter
Chair: Andreas Schmitt Panel members: Juergen Schaffner-Bielich, Fiorella Burgio, David Blaschke, Wynn Ho, Josef Pochodzalla, Wolfram Weise

Round Table: Resolving Physics BSM at Low Energies
Chair: Susan Gardner Panel members: Vincenzo Cirigliano, Peter Fierlinger, Christian Fischer, Karl Jansen, Stephan Paul

Round Table on Quark-gluon plasma: What is it and how do we find out?

PUBLIC LECTURE: The colourful world of Quarks and Gluons
Part I: The shaping of Quantum Chromodynamics
Prof. Dr. Gerhard Ecker (University of Vienna)
Part II: The many facets of Quantum Chromodynamics
Prof. Dr. Thomas Mannel (University of Siegen)
This is a particularly important edition
This is a particularly important edition

*10th edition:
time to reconsider what has been done in past editions
This is a particularly important edition

*10th edition:
time to reconsider what has been done in past editions

*it takes place at a particularly important time for particle physics--> it will be a precious opportunity to discuss perspective and future of strong coupled theories
This is a particularly important edition

*10th edition:
time to reconsider what has been done in past editions

*it takes place at a particularly important time for particle physics---> it will be a precious opportunity to discuss perspective and future of strong coupled theories

use this opportunity to prepare together with the conveners a document about

QCD driven Strongly Coupled Physics: challenges, scenarios and perspectives
This conference is
This conference is a kind of family meeting nice, a community to all those who study strong interactions.
This conference is

a kind of family meeting nice, a community to all those who study strong interactions

the result of a nice and special cooperative effort
This conference is

a kind of family meeting nice, a community
to all those who study strong interactions

the result of a nice and special cooperative effort

The success of the conference will be
determined by you, by your talks, by your
posters, by the level and the intensity of
the discussion that will take place at the
conference!
