

12th Russbach School on Nuclear Astrophysics

First Circular

Dear Colleagues,

We would like to announce that the 12th Russbach School on Nuclear Astrophysics will take place at the village of Rußbach am Paß Gschütt, southeast of Salzburg, Austria. The school dates will be from **March 08 (arrival) to March 14 (departure) 2015**. This school belongs to the European Network of Nuclear Astrophysics Schools (ENNAS). We shall limit the number of participants to about 60 to ensure a convivial atmosphere, and the possibility to share dinners between all participants.

In keeping with its tradition, the school will bring together specialists from the various sub-fields of astrophysics, astronomy, cosmochemistry and nuclear physics with the aim to raise mutual interest and to teach under- and postgraduate students, young post-docs as well as senior scientists interested in being introduced to nuclear astrophysics. The school will be organized in major topical sessions, with dedicated lecture time for basic introduction, presentations of the various aspects of the topic, and ample time for discussions and out-door activities in the Dachstein West mountain region.

The website address for the next Russbach school is:

<http://www.universe-cluster.de/russbach2015>

You can find there useful information for the school and links to previous ones.

Registration is now open.

Students/young researchers are encouraged to give oral presentations.

The expenses for the school, including half board (breakfast and dinner), will be for the whole week of about 330 Euro per person in twin-room accommodation and about 390 Euro in a limited number of single rooms. In addition, we will ask for modest registration fees for senior scientists, post-docs and PhD students. There will be no fee for undergraduate students.

The second circular will be sent at the end December.

The Scientific advisory committee of the Russbach workshop is composed of:

A. Banu (Virginia)
M. Busso (Perugia)
N. Christlieb (Heidelberg)
