Session Program

Sep 6 – 8, 2018

Exploring the Perfect Liquid

Quarkonia

Max Planck Institute for Astrophysics (MPA), E.0.11
Karl-Schwarzschild-Str. 1 85748 Garching

Fri, September 7

9:00 AM

Quarkonia: Morning

Session |
Location: Max Planck Institute for Astrophysics (MPA), E.0.11, Karl-Schwarzschild-Str. 1 85748 Garching |
Convener: Jean-Philippe Lansberg

9:00 – 9:25 AM **Overview on Quarkonia**

Speaker
Roberta Arnaldi

9:35 – 9:55 AM **Charmonium production within the Statistical Hadronisation Model**

Speaker
Markus Koehler

10:05 – 10:25 AM
Recent Results on Lattice QCD at non-zero temperature and density

Speaker
Peter Petreczky

10:35 – 11:05 AM **Coffee Break**

11:05 – 11:25 AM
ϒ-meson dissociation in Pb+Pb collisions at LHC energies and the role of the electromagnetic field

Speaker
Johannes Hölck

11:35 – 11:55 AM **On nonequilibrium quarkonium evolution in the QGP fireball**

Speaker
Yan Zhu

12:05 – 12:25 PM **sPHENIX at RHIC: Science mission and status**

Speaker
Gunther Roland

12:35 PM
