

Nine Billion Years of Neutral Gas Evolution

Monday, July 29, 2019

Posters - Eridanus Auditorium (1:25 PM - 1:35 PM)

[id] title	presenter	board
[51] Evolution of galactic magnetic fields in HI defined interaction stages.	DAMAS, Ancor	
[79] Spin alignment in CHILES	GROSS, Julia	
[40] A new perspective on group finding	HUTCHENS, Zackary	
[39] The impact of local photoionization sources on simulated galaxies: evolution of HI disks	OBREJA, Aura	
[18] Properties of AU-scale structure from 21-SPONGE observations	RYBARCZYK, Daniel	
[43] Predictions of detections of high mass galaxies in CHILES	SANCHEZ BARRANTES, Monica
