

17th Russbach School on Nuclear Astrophysics

Dear Colleagues,

We would like to announce that the 17th Russbach School on Nuclear Astrophysics will take place at the village of Rußbach am Paß Gschütt, southeast of Salzburg, Austria. The school dates will be from **March 15 (arrival) to March 21 (departure) 2020**. This school belongs to the European Network of Nuclear Astrophysics Schools (ENNAS) a network made by the European schools on nuclear astrophysics and related areas (the Santa Tecla, the Sinaia, and the Russbach school).

In keeping with its tradition, the school will bring together specialists from the various sub-fields of astrophysics, astronomy, cosmochemistry and nuclear physics with the aim to raise mutual interest and to teach under- and postgraduate students, young post-docs as well as senior scientists interested in being introduced to nuclear astrophysics. The school will be organized in major topical sessions, with dedicated lecture time for basic introduction, presentations of the various aspects of the topic, and ample time for discussions and out-door activities in the Dachstein West mountain region. Students/young researchers are encouraged to give oral presentations.

The expenses for the school, including half board (breakfast and dinner), will be for the whole week of about 420 € per person in twin-room accommodation and about 480 € in a limited number of single rooms. In addition, we will ask for registration fees for senior scientists, post-docs and PhD students. There will be no fee for undergraduate students. We shall propose a limited amount of grants for student's accommodations. Note that some participants can also be eligible for the ChETEC COST action support.

You can soon register at the following link:

<https://indico.ph.tum.de/e/russbach2020>. You can apply for a presentation by proposing an abstract and find useful information for the school and links to previous ones.

The second circular will be sent in December with more information on lecturers and tentative scientific programs.

We are looking forward to meeting you in Russbach

The Organizers: S. Bishop, K. Schmidt and O. Sorlin
