

Summer School on
Methods of Effective Field Theory
and Lattice Field Theory

Bad Honnef Physics School

Second Edition — 2021 (online)

Organizing committee:

Alexei Bazavov (MSU)

Nora Brambilla (TUM)

Viljami Leino (TUM)

Johannes Weber (HU)

International advisory

committee:

Andreas Kronfeld (FNAL)

Peter Petreczky (BNL)

Antonio Vairo (TUM)

Let us thank ...

- German Physical Society (DPG)
 - for providing the funding and infrastructure
- Technische Universität München, Michigan State University
 - for providing access to services such as Zoom, Indico
- Wonder.me
 - for virtual coffee breaks

Let us thank ...

- Victor Gomer (Physikzentrum Bad Honnef)
 - for handling everything on the Physikzentrum side, registration, funding, contacting students, etc.
- Leon Hostetler (MSU), Viljami Leino (TUM), Johannes Weber (HU)
 - for the work behind the scenes on Zoom, Indico, wonder.me, setting things up, testing

Let us thank ... the lecturers

- Vincenzo Cirigliano (Los Alamos National Laboratory)
- Zohreh Davoudi (University of Maryland)
- Miguel Ángel Escobedo (Universidade de Santiago de Compostela)
- Zoltan Fodor (Universitaet Wuppertal)
- Martin Hoferichter (University of Bern)
- Andreas S. Kronfeld (Fermi National Accelerator Laboratory/TUM)
- Ian Moulton (Lawrence Berkeley National Laboratory)
- Matthias Neubert (University of Mainz)
- Antonio Pineda (Universitat Autònoma de Barcelona)
- Sasa Prelovsek (University of Ljubljana)
- Martin Savage (University of Washington)
- David Schaich (University of Liverpool)
- Yukinari Sumino (Tohoku University)
- Yong Zhao (Argonne National Laboratory)

Let us thank ...

- ... and the audience, YOU!

Until next time ...

Summer School on
Methods of Effective Field Theory
and Lattice Field Theory

Third Edition
July 9–21 2023
Bad Honnef, Germany
