Session Program

28–30 Aug 2023

ORIGINS PhD Days 2023

Life Science

Wednesday 30 August

09:00

Life Science

Session | **Location:** Klosterweg 1, 83370 Seeon

09:00–09:20 **Evolution of prebiotic molecules in thermal traps**

Speaker
Felix Dänekamp

09:20–09:40

Reciprocal Interactions between DNA and Complex Coacervate Droplets in the Context of the Origin of Life

Speaker
Anna-Lena Holtmannspötter

09:40–10:00

Selective phosphorylation to 2’,3’-cyclic phosphate nucleotides and their subsequent polymerization

Speaker
Juliette Langlais

10:00
